Open the door to a quicker sale

Studies have shown that homes with lockboxes sell one third faster than homes without.

Electronic access control

Supra KeyBoxes are designed to assist the real estate professional in the sale of your home. By providing agents convenient, authorized and documented access to your property, your home will get the exposure it needs to sell fast.

Accountability

A special electronic key and a valid PIN number are required for KeyBox access. Only authorized agents are able to show your home. Each entry is documented in the box and in a database.

Security and privacy

The Supra KeyBox records the agent's identity, office, phone number and time the KeyBox is opened. To assure your privacy, the KeyBox offers an option to limit showing hours.

Showing By Appointment Only

You or your agent may require all showings to be prescheduled through the listing agent or to be accompanied. Supra KeyBoxes can be restricted with an additional code known only to the listing agent allowing keys to be kept at their safest location (your home) while still maintaining listing agent control.
